

A Shared Document that Anyone can Edit

Click on the **+** to add a paragraph to a section, or click on the "Add a new section" button to add a new section. Click on the **►** to edit the associated title, section header, or paragraph.

Section 1. Adding a new section is really a two-step operation

After you click on "Add a new section" you get new buttons. Click on the new black triangle to name the section. Then click on the plus (+) sign to add a paragraph. (Eric A. Bier)
